Subject: RE: Confirming send to DTSC - FW: 3/16 EJ Task Force Mtg - Carol Harvey linked Treasure Island to RE: Hunters Point article

Thank you for keeping me in the loop about your meeting, and I'm glad DTSC is coordinating internally. I also was informed about Bill Franklin as being the Navy contact for these issues. Navy told me they did NOT use the same contractors for radiation work at TI.

I talked verbally to Nina Bacey about this yesterday. Nina was temporary Treasure Island RPM recently. Bill Franklin is the Navy Public Affairs Officer, who recently took Carol Harvey on a tour at Treasure Island.

Thank you. I've passed this on to the Treasure Island project manager and our public participation specialist for that site.

Subject: 3/16 EJ Task Force Mtg - Carol Harvey linked Treasure Island to RE: Hunters Point article

Since the State has the lead on Treasure Island, and since Bill is also actively working at Treasure Island, I wanted to make sure that you know:

At the 3/16/16 Bayview Hunters Point EJ Task Force Meeting, Carol Harvey attended. She was scheduled during the "new complaints" section of the agenda to talk 5 minutes about concerns about radiation at Treasure Island. She said that these issues are linked to Hunters Point because the Navy had also hired Tetra Tech in Treasure Island. Several members of the public who attended the meeting were also interested in Treasure Island. Eric Brooks, who routinely attends the Bayview meetings, stated that he had also been following Treasure Island issues. Bradley Angel, the Exec Dir of Greenaction, which runs the EJ Task Force, said that he wanted to keep the Treasure Island concerns as part of what the EJ Task Force would address because of these connections. When people asked if Treasure Island should be on the agenda for 4/21, he didn't say that it should necessarily be explicitly on the agenda. But he wanted generally to keep Treasure Island linkages in mind as we go along.
